It is our privilege to present you, the most beautiful and durable product for your outer and inner application. Our long business association with the industry has helped us to make perfect concrete mix .We have tried to maintain the quality of the product through vigorous research, marketing feedback and in-house testing at out own lab. We assure you that all available international or indigenous branded product are used in marketing of Eco bricks & pavers for its durability & style.

Product Profile

Eco Bricks an ISO 9001:2015 Certified Company in Kulti , having most modern manufacturing facility for designer concrete tiles & pavers for wall, floor. Eco Bricks uses the expertise of qualified personal in making of these tiles, pavers, Blocks & Bricks which helps in drafting a appropriate mix design as per the requirement of the customer & need of the project. Eco Bricks are manufactured in various traditional & contemporary design & various natural & vibrant colors to suit the taste of every customer. Eco Bricks can be applied at any outer & inner area irrespective of rough & tough application. It will provide beauty with durability.

ADVANTAGES :

- Higher compressive strength
- Lower cost per unit of construction
- High durability
- Less cement mortar consumption
- Lighter in weight

APPLICATION:

- Interior and exterior of building
- Foundation
- Garden walls and boundaries
- Pavement
- Steps

Length (mm)	width (mm)	height (mm)	Strength(N/mm <sub>2</sub> or mpa)
230	110	75	~7 -7.5
110	90	90	~7-7.5
250	120	75	~7-7.5

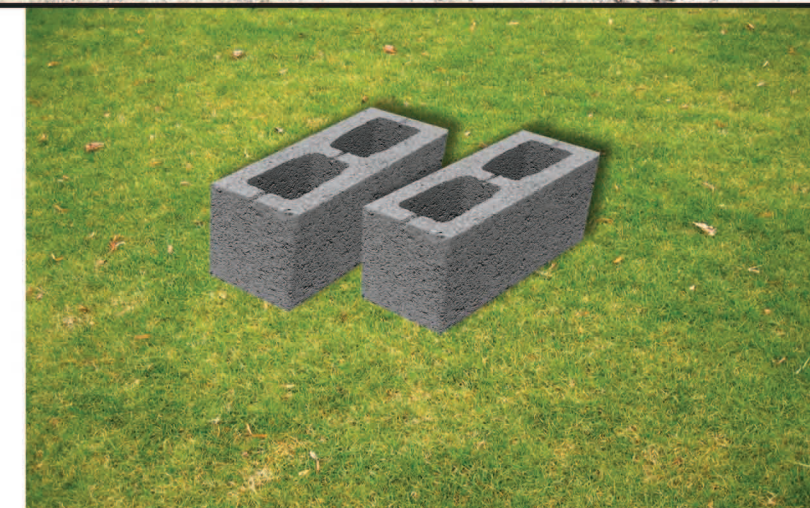

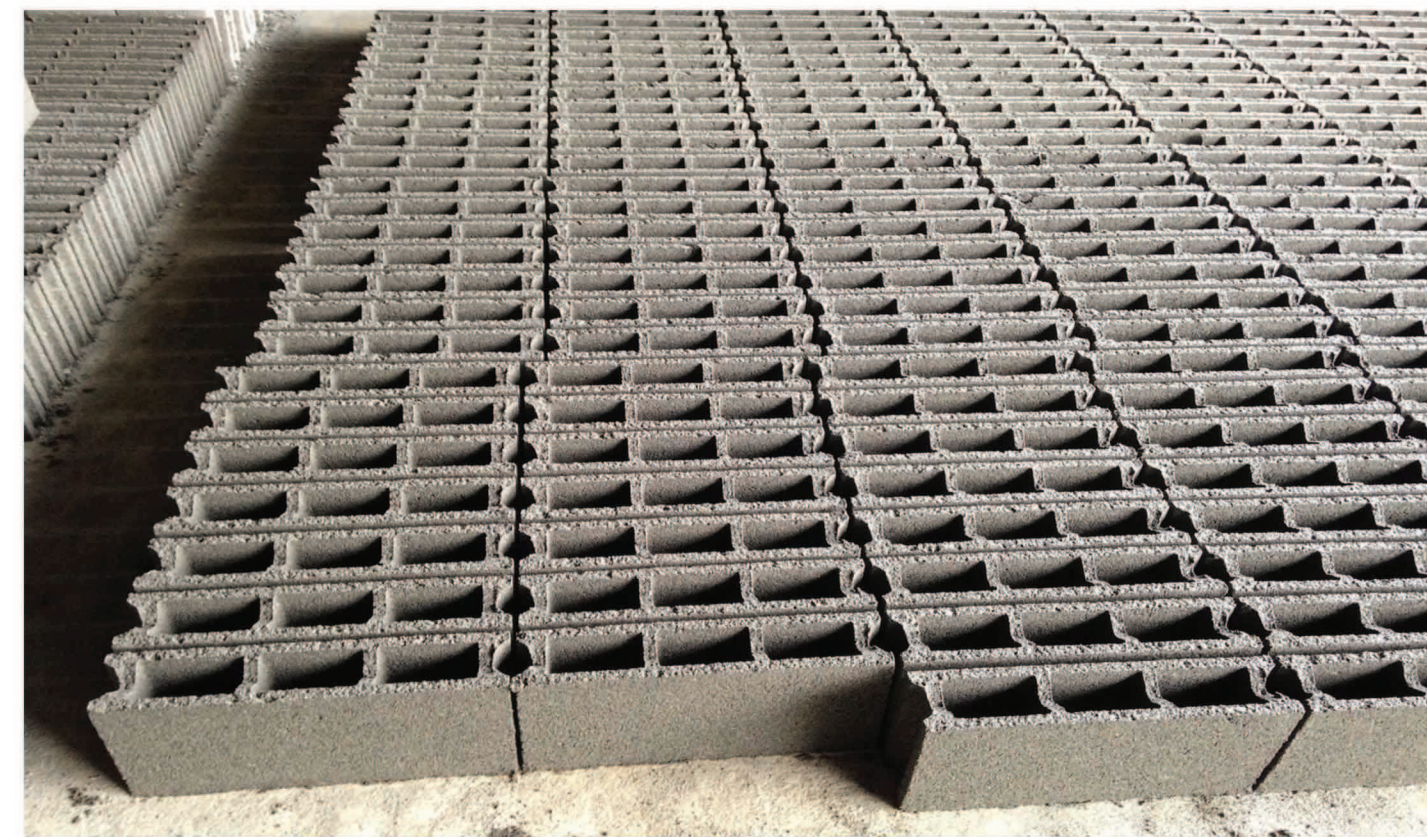

## ADVANTAGE

- REDUCED CONSTRUCTION COST
- DURABLE
- ENERGY SAVER
- DESIGN FLEXIBILITY
- HIGH STRENGTH
- ZERO BREAKAGES
- REDUCED MAINTENANCE COSTS
- SUPERIOR FINISH

## APPLICATIONS:

- INTERNAL PARTITION WALLS
- FOUNDATION
- GARDEN WALL & PLANTERS
- RETAINING WALL
- STEPS
- SOLID PATIO
- ACOUSTIC SEPARATING PARTY WALLS
- INNER & OUTER LEAF OF EXTERNAL CAVITY WALLS OVER 3 STORIED

SIZE	LENGTH (mm)	WIDTH (mm)	HEIGHT (mm)	STRENGTH (N/mm <sup>2</sup> )	WEIGHT (Kg)
4"	400	100	200	5–7.5	16
6"	400	150	200	5–7.5	24
8"	400	200	200	5–7.5	34

## ADVANTAGE:

- HIGHLY DURABLE
- GOOD RESISTENCE TO FIRE
- LOW MAINTENANCE
- THERMAL & SOUND INSULATION
- ENVIRONMENTAL FRIENDLY
- COST SAVING OF UPTO 40%

## APPLICATIONS:

- THEN OFTEN COVERED WITH STUCCO
- EXTERIOR WALLS – USUALLY PLAIN FACED &
- FOUNDATION WALLS – TYPICALLY ROCK FACED
- MOST CONCRETE HOLLOW BLOCKS ARE USED AS
- BASEMENT WALLS /PARTITION – USUALLY PLAINFACED
- A BACK-UP MATERIAL OR FOR CAVITY WALL CONSTRUCTION

SIZE	LENGTH (mm)	WIDTH (mm)	HEIGHT (mm)	STRENGTH (N/mm <sup>2</sup> )	WEIGHT (Kg)
4"	400	100	200	3.5–7.5	11
6"	400	125	200	3.5–7.5	13.5
8"	400	150	200	3.5–7.5	21

# Floor Tiles

## Application

Driveways,  
Swimming Deck,  
Malls,  
Railway Platform,  
Parking Bay.

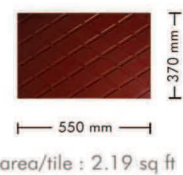

Rock

THICKNESS  
22 mm, 25mm

## Application

Parking Bay,  
Driveway,  
Swimming Deck,  
Malls,  
Institutional  
Buildings.

Trappize

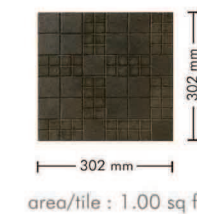

THICKNESS  
22 mm, 25mm

# Floor Tiles

## Application

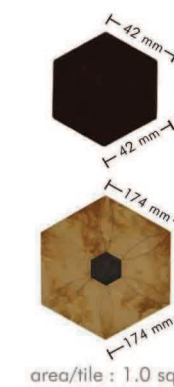

Parking Bay,  
Malls,  
Government  
Buildings,  
Driveways.

THICKNESS  
22 mm, 25mm | Inmate

## Application

Residential  
Complex,  
Malls,  
Industrial Building,  
Parking Bay.

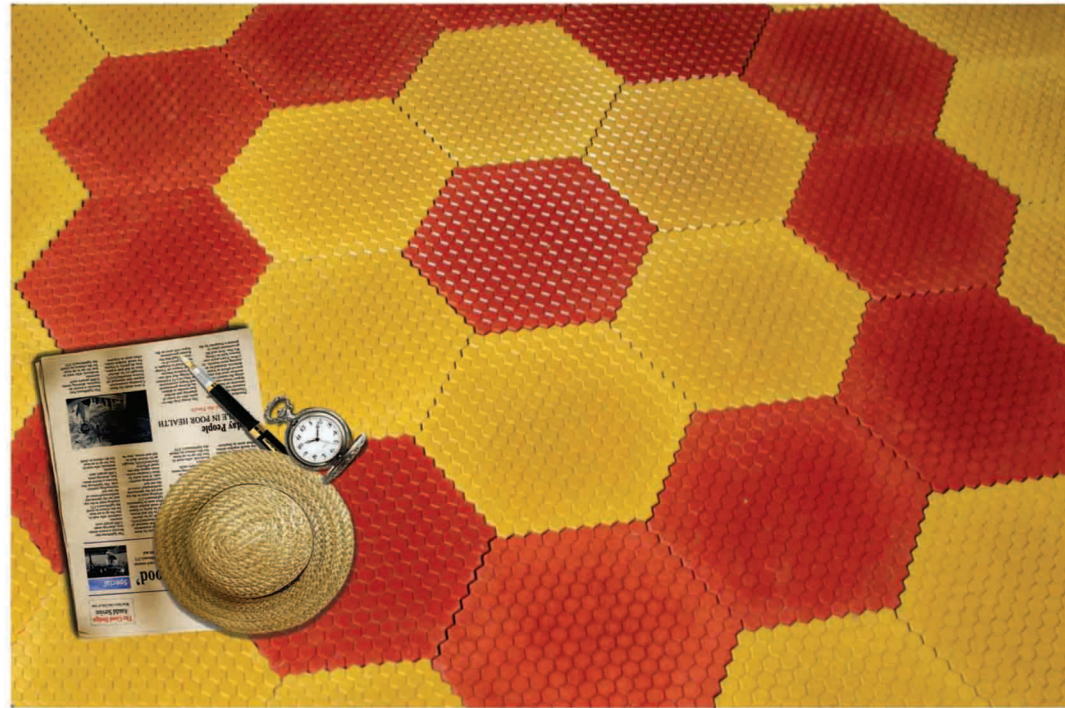

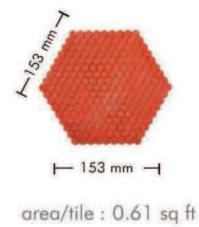

THICKNESS  
22 mm, 25mm | Kelvin & Kox

## Floor Tiles

### Application

Farm House,  
Driveways,  
Malls,  
Parking Bay,  
Footways.

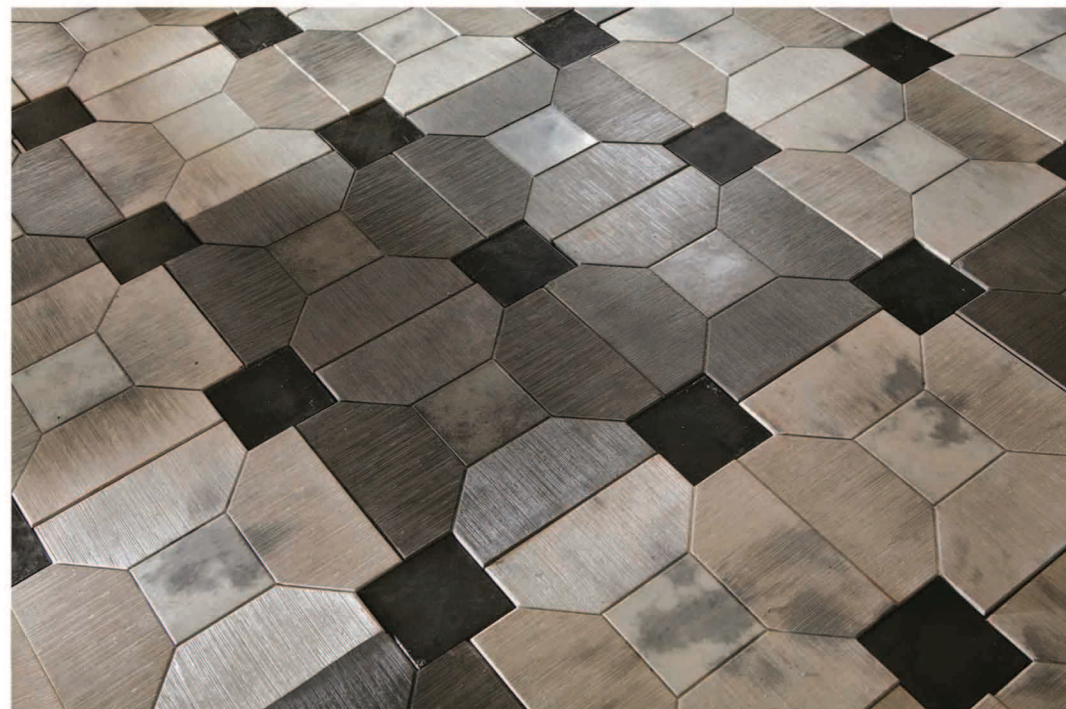

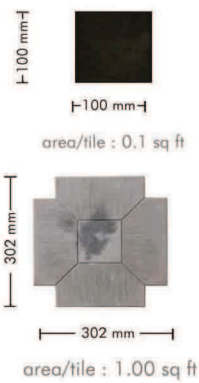

Honney Comb | THICKNESS 22 mm, 25mm

### Application

Shopping Malls,  
Residential Project,  
Parking Bay,  
Driveways.

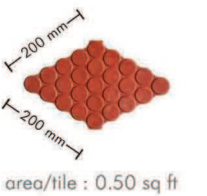

Cube Angle | THICKNESS 22 mm, 25mm

## Floor Tiles

### Application

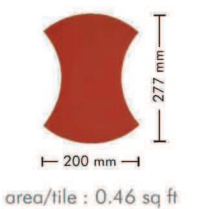

Swimming Deck,  
Driveways,  
Malls,  
Railway Platform,  
Parking Bay.

THICKNESS 22 mm, 25mm | Elegant Polka

### Application

Garden,  
Driveways,  
Malls,  
Railway Platform,  
Parking Bay,  
Terrace.

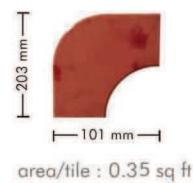

THICKNESS 22 mm, 25mm | Bonney

## Floor Tiles

### Application

Driveways,  
Swimming Deck,  
Malls,  
Residential  
Complex,  
Parking Bay.

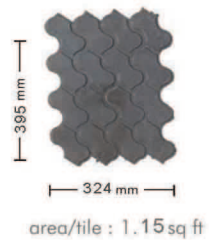

**Akash** | THICKNESS  
22 mm, 25mm

### Application

Terrace,  
Driveways,  
Swimming Deck,  
Malls,  
Commercial  
Establish Mall,  
Parking Bay.

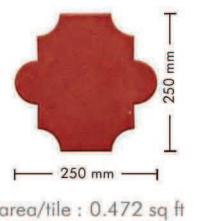

**Scorpio** | THICKNESS  
25mm, 30 mm

## Pavers

### Application

Light Motor  
All Road,  
Walkways,  
Pavement,  
Complex,  
Industrial Floor,  
Etc.

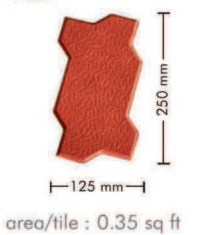

**King Fort** | THICKNESS  
40 mm, 60mm, 80mm, 100mm

### Application

Heavy Traffic  
Area,  
Walkways,  
Pavement,  
Complex,  
Industrial Floor,  
Airports Area,  
Etc.

**Zig Zag** | THICKNESS  
40 mm, 60mm, 80mm, 100mm

# Pavers

## Application

Pathways,  
Walkways,  
Public Buildings,  
Industrial Floor,  
Etc.

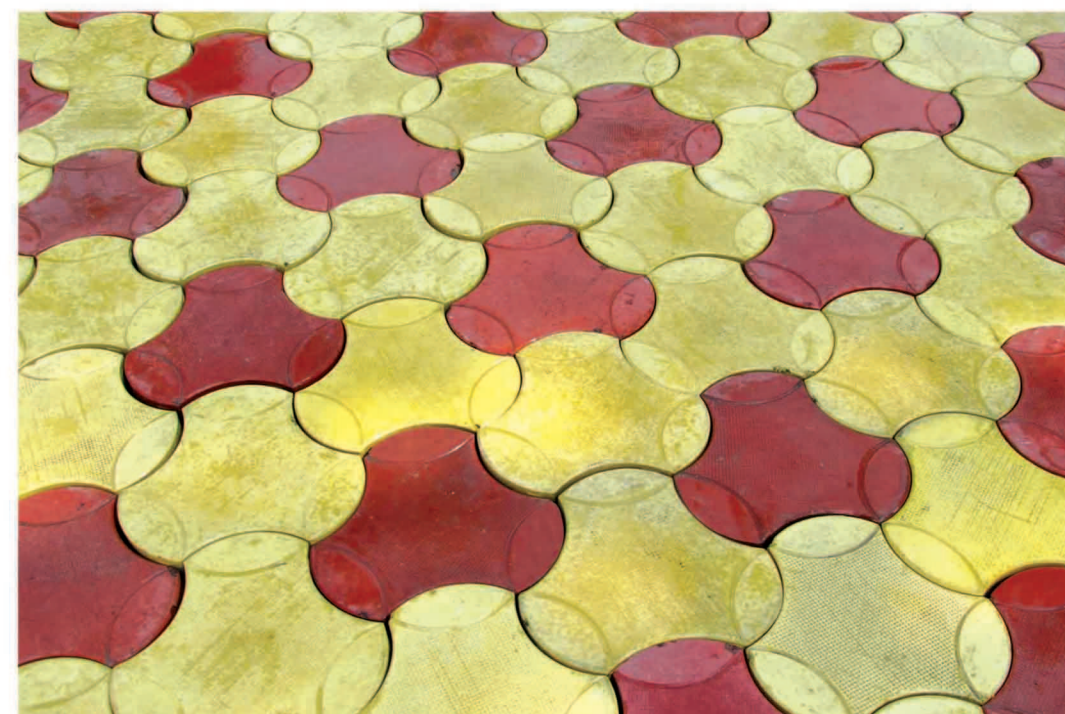

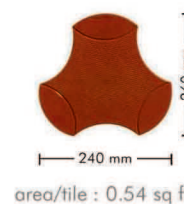

Arch | THICKNESS

## Application

Driveways,  
Walkways,  
Pavement,  
Residential  
Complex,  
Industrial Floor,  
Etc.

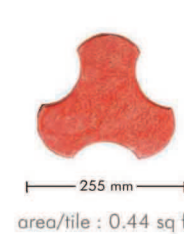

Floric | THICKNESS  
40 mm, 60mm, 80mm, 100mm

## Application

Parking Area,  
Walkways,  
Pavement,  
Complex,  
Industrial Floor,  
Etc.

THICKNESS  
40 mm, 60mm, 80mm, 100mm | Tri Arc

We are engaged in manufacturing of wide range of manganese and steel casting that finds usage in various industrial applications.

## Products manufactured :

- 1.Jaw plate
- 2.Side plate
- 3.Hexagon and Square steel casting
- 4.Liner

## ADVANTAGES:

- 1.High ductility
- 2.Corrosion Resistant
- 3.High Tensile strength
- 4.High Durability

## APPLICATION:

Construction –for crushing and grinding stones

Mining –to fragment rocks

Tunnel work

Other industrial work

## Our Esteemed Customer
